

Math 8 Study Groups, Fall 2009

There will be four study groups:

Sundays 3:30 to 5 p.m., hosted by Natalie Burkhard

Mondays 7:30 to 9 p.m., hosted by Cyrus Peterpaul

Mondays from 9 to 10:30 p.m., hosted by Cyrus Peterpaul

Wednesdays from 7:30 to 9 p.m., hosted by Greg Troderman

Study group sign-ups will begin this Wednesday, October 7 at noon. There is now an on-line access to facilitate the study group registration process.

Instructions to access the Tutor Clearinghouse's online study group registration system (beginning Wednesday, October 7):

–Go to: <http://studygroups.dartmouth.edu>

–This will bring you to a log-in page. Click the "login" button. Enter your DND information to get into the registration system.

–This will bring you to the STUDY GROUPS FOR 09 FALL page. It will show all the study groups that are available this term, the leaders and how many spots are available for the study group that is of interest.

–Click on the study group that is of interest and it will display the details, including an option to REGISTER. Click on that button. A message will display that will advise you that your registration has been accepted and that you will need to pay for your participation in the study group.

–The final step is to go to the Academic Skills Center (301 Collis) to pay for the study group. We can take DASH, CASH or CHECK (payable to Dartmouth College). Once your payment has been noted in the system, an email will be sent to you confirming that your registration is complete, disclosing the location of the study group.

Our best advice is to get into the study group program early and participate regularly! Of all the students who sign up for study groups, 77 percent have reported participating regularly. This is one of the best strategies to maximizing your academic potential.
