

DARTMOUTH COLLEGE

Associate/Full Professor of Mathematics

The Department of Mathematics at Dartmouth College welcomes applications for a position in geometry (broadly defined), with a preference for an appointment at the rank of Associate or Full Professor, for the 2019–2020 academic year. We seek candidates with a record of achievement commensurate with this level of appointment though the department also welcomes candidates who are not yet but expect to be promoted to these ranks. They should have a track record that exhibits the promise of continuing a high level of research activity, along with a keen interest and demonstrated excellence in teaching and mentorship of both undergraduates and graduate students. Candidates with the potential to bridge multiple areas both inside and outside the Department of Mathematics are particularly attractive.

The department (<https://math.dartmouth.edu>) is home to 21 tenured and tenure-track faculty members. Part of the School of Arts and Sciences, the Department of Mathematics has a strong Ph.D. program and outstanding undergraduate majors. Members of the department have collaborative connections across the Arts and Sciences, with the Geisel School of Medicine at Dartmouth, the Thayer School of Engineering, and the Tuck School of Business.

With an even distribution of male and female students and over a quarter of the undergraduate student population members of minority groups, Dartmouth is committed to diversity and encourages applications from women and minorities. Dartmouth is an equal opportunity/affirmative action employer with a strong commitment to diversity. In that spirit, we are particularly interested in receiving applications from a broad spectrum of people, including women, persons of color, persons with disabilities, veterans or any other legally protected group.

To create an atmosphere supportive of research, Dartmouth offers new faculty members grants for research-related expenses, a quarter of sabbatical leave for each three academic years in residence and flexible scheduling of teaching responsibilities. The teaching responsibility in Mathematics is three courses spread over three of four ten-week terms.

Applicants should submit a letter of application, curriculum vitae, a brief statement of research results and interests, and a brief statement of pedagogical experience and philosophy; and arrange for four letters of reference, at least one of which specifically addresses teaching. **Initiate application at www.math-jobs.org — Position ID: TG #12552.**

General inquiries can be sent to Tracy Moloney, Department Administrator, (tfmoloney@math.dartmouth.edu), Department of Mathematics, Dartmouth College, 6188 Kemeny Hall, Hanover, New Hampshire 03755-3551.

Specific questions on the selection process can be referred to Professor Craig Sutton, Recruiting Chair (Craig.Sutton@dartmouth.edu).

Applications received by December 15, 2018 will receive first consideration.
