Harlan Capital Partners Internship
Summer 2024

This past summer, I interned at a Private Credit investment firm in Palm Beach, Florida, called Harlan Capital Partners. I really enjoyed researching new investment opportunities and learning more about investment due diligence and portfolio management. I also learned a tremendous amount from the wonderful team at Harlan Capital. My internship culminated in a final project, where I presented an investment opportunity alongside a financial model I built. It was rewarding to incorporate many of the skills I've learned in my Statistics, CS, and Math classes at Dartmouth into the project. I am grateful to the Byrne Scholars Program for their support in allowing me to explore my interests in Mathematics and Finance.
